Furniture. — Carpets. — Coffins.

This modest cut shows the First Street entrance to our large building, which is one of the largest business houses in the City. When we began business three years ago we had only 2500 square feet of floor space, in the two buildings we now occupy we have 11760 square feet and have every foot of it filled with

Furniture and Coffins.

The increase in our sales has been in proportion to the increase in our floor space. Each year has shown an increase volume of business of which we feel very proud. You may wonder how we have effected this phenomenal growth in business in the face of hard competition. It is easily explained, we have just simply relied upon an accurate knowledge of successful business methods. We have never advertised bargains we could not supply; we have never bought shoddy, cheaply finished goods; we have never encouraged people to buy our goods on credit.

They can be bought at most any price; some are as cheap as wood beds, it depends upon the style bed you buy. We carry lots of them and sell lots of them.

We also carry an elegant assortment of MANTEL and FOLDING BEDS, in Oak, Birch and Mahogany.
